INDEPENDENT AUDITOR'S REPORT

The Honorable Board of Supervisors of the Bergen County Soil Conservation District Oradell, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the Bergen County Soil Conservation District (the "District"), which comprise the statement of financial position as of June 30, 2019, and the related statements of activities and changes in net position and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of the New Jersey Department of Agriculture's Financial Accounting Manual. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the audit requirements as prescribed by the Department of Agriculture's manual, as prescribed by the New Jersey State Soil Conservation Committee. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purposes of expressing an opinion on the effectiveness of the entity's internal control.

Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies uses and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared by the district on the basis of financial reporting provisions of the New Jersey Department of Agriculture's Financial Accounting Manual, which is a basis of accounting other than accounting principles generally accepted in the United States of America, as required by the New Jersey State Soil Conservation Committee.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of the various individual funds and account groups of the District as of June 30, 2019, or the results of its activities and changes in net position for the year then ended.

Opinion on Statutory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the District as of June 30, 2019, and the changes in net position and its cash flows for the year then ended in accordance with the financial provisions of the New Jersey Department of Agriculture's Financial Accounting Manual.

Report on Summarized Comparative Information

We have previously audited Bergen County Soil Conservation's District's 2018 financial statements, and our report dated April 2, 2019, expressed an unmodified opinion on those financial statements. In our opinion, the summarized comparative information presented herin as of and for the year ended June 30, 2018, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Matters

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplementary information listed in the foregoing table of contents is presented for the purposes of additional analysis as required by the New Jersey Department of Agriculture's Financial Accounting Manual in accordance with those standards regarding the statement of budget verses actual expenditures – all funds combined and is not a required part of

the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America and the audit requirements as prescribed by the New Jersey Department of Agriculture's Financial Accounting Manual. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 19, 2020 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Board of Supervisors of the Bergen County Soil Conservation District Oradell, New Jersey

We have audited, in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the audit requirements as prescribed by the Department of Agriculture's manual, as prescribed by the New Jersey State Soil Conservation Committee, the financial statements of the Bergen County Soil Conservation District, (the "District"), which comprise the statements of financial position as of June 30, 2019, and the related statements of activities, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated February 19, 2020.

Internal Control Over Financial Reporting

In planning and performing our audits of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies.

Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

However, we noted certain matters that we have reported to the management of the District in the accompanying comments and recommendations sections of this report.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

The Bergen County Soil Conservation District, (the "District"), is one of fifteen Soil Conservation Districts in the State of New Jersey under the auspices of the New Jersey Department of Agriculture. Each District is governed by a Board of Supervisors, which sets policies and performance guidelines. The Districts work closely with the USDA Natural Resources Conservation Service to promote the wise use of soil and water resources. In 1976 the Districts in New Jersey were mandated to administer Chapter 251, The NJ Soil Erosion and Sediment Control Act of 1975, the objective of which was to prevent soil erosion and sedimentation from development sites, mitigate impacts to soil resources, and enhance soil quality.

Financial Statement Presentation

The District is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets and permanently restricted net assets. Unrestricted net assets can be expended by the District for any aspect of its operations, at any time, as determined by management. Temporarily restricted net assets are either restricted to a specific program, a specific time period or both, but eventually, will be expended by the District. Permanently restricted net assets can never be expended, but benefit the District through investment earning on such assets. At June 30, 2019 the District had only unrestricted and temporarily restricted net assets.

Basis of Accounting

The accounting policies of the District conform to the financial reporting provisions and practices prescribed by the Department of Agriculture, State Soil Conservation Committee, State of New Jersey.

District funds are accounted for using the accrual basis of accounting, with the following exceptions. Support and revenue are recognized when they become both measurable and available as net current assets. Expenditures are recognized when the related fund liability is incurred. Chapter 251 revenue is recognized when received and Chapter 251 expenses are recognized when incurred.

The accounts of the District are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, net assets, support and revenue and expenditures. Equipment purchases are recorded in the fund of acquisition with an appropriate transfer to the equipment fund. Accumulated depreciation is reported on the statement of financial position.

Reclassifications

Certain reclassifications may have been made to the prior year financial statements presentation to correspond to the current year's format. These reclassifications had no effect on net position or changes in net position.

2. INVESTMENTS

The District records investments at fair market value, when available. Certificates of deposit that have original maturities of greater than three months are considered investments.

Investments at fair value consisted of:

	2019
Certificate of Deposits	\$969,150

3. OPERATING LEASE

On April 10, 2018 the District signed a lease with Kamack Realty which took effect on May 1, 2018 and expires on April 30, 2023. Total operating lease payments (excluding utilities) made during the year ended June 30, 2019 was \$32,230. Future minimum lease payments are as follows:

For the Year ending	
June 30,	 Amount
2020	\$ 32,230
2021	32,962
2022	33,695
2023	28,080
	\$ 126,967

The District also rents storage space on a monthly basis. The total rent paid for storage for the year ended June 30, 2019 was \$5,532.

4. PENSION PLAN

Substantially all full-time District employees participate in the Public Employees Retirement System (PERS). The PERS system is cost-sharing multiple-employer contributory defined benefit retirement system sponsored and administered by the State of New Jersey, Department of Treasury, Division of Pensions and Benefits.

According to state statutes, all obligations of PERS will be assumed by the State of New Jersey should the PERS be terminated. The State of New Jersey issues publicly available financial reports that include the financial statements and required supplementary information of the PERS and PFRS. The financial reports may be accessed via New Jersey Division of Pension and Benefits website at www.state.nj.us/treasury/pensions.

4. PENSION PLAN (Continued)

STATE-MANAGED PENSION PLANS – PERS CONTRIBUTIONS AND LIABILITY (Continued)

Pursuant to the provision of Chapter 78, P.L. 2011, COLA increases were suspended for all current and future retirees of all retirement systems.

The District's contributions for the past three years are as follows:

For the Year ending		
June 30 ,	A	mount
2019 2018	\$	52,732 48,466
2017		45,769

At June 30, 2019, the District's net pension liability for PERS was \$1,009,538.

The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. At June 30, 2018, the District's PERS proportion was 0.0051%, which was an increase of 0.0001% from June 30, 2017.

Actuarial Assumptions

The collective total pension liability for the June 30, 2018 measurement date was determined by an actuarial valuation as of July 1, 2017, which was rolled forward to June 30,2018. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation rate	2.25%
Salary increases: Through 2026	1.65 – 4.15% Based on age
Thereafter	2.65 – 5.15% Based on age
Investment rate of return	7.00%

4. PENSION PLAN (Continued)

<u>STATE-MANAGED PENSION PLANS – PERS CONTRIBUTIONS AND LIABILITY</u> (Continued)

Pension Plan fiduciary net position

Detailed information about the PERS pension plans' fiduciary net position are available in the separately issued financial reports. These reports may be accessed via the New Jersey Division of Pension and Benefits website at www.state.nj.us/treasury/pensions

5. <u>RESERVE FOR FUTURE SOIL EROSION AND SEDIMENT CONTROL ACT</u> (CH.251) EXPENDITURES

The Reserve for future Soil Erosion and Sediment Control Act Expenditures is established to identify the funds available for the costs of future expenditures on projects currently received and in progress, for which fees under the act have been previously collected. All fees received shall remain with the reserve balance total. All fees collected from applicants are restricted to the chapter 251 program and used only for implementing that program. The reserve balance includes the unexpended, initial review/certification/inspection fees and supplemental fees received. At the option of the District Board and pursuant to formal action by the District Board, interest income from reserve balances may be utilized for the chapter 251 program or for the district education program. Use of interest income is authorized at N.J.A.C. 2:90-1.12 and pursuant to policy approval by the SSCC on September 13, 2007.

Reserve Balance on June 30, 2019 \$565,095

6. SURETY BOND COVERAGE

The District Manager and the Administrative Secretary/Bookkeeper have coverage of \$200,000 each.

7. RELATED PARTY TRANSACTIONS/GRANTS PAYABLE

The Bergen County Environmental Council, (the "Council"), is a volunteer committee organization dedicated to improving water quality through education and demonstration projects. The Council consists of private citizens as well as representatives of various private and public organizations. Council members are appointed by the Bergen County Board of Chosen Freeholders and serve two year terms. Funding is obtained through grants from the Bergen County Freeholders and Bergen County Department of Health Services Clean Communities Program. The Council's programs include the stream bank restoration (shrubs are purchased and planted), stream cleaning and environmental education.

The Council's funds are kept in the District's checking account. A treasurer's report is prepared for each monthly meeting. As of June 30, 2019, funds in the amount of \$1,200 are available to the council for grant activities.

8. PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment are recorded at cost. Depreciation is computed using the straight-line method over the following estimated useful lives:

N POWER CONTRACTOR	5 years
Vehicles	5 years
Furniture	7 years

9. CONTINGENT LIABILITIES

The District's counsel is not aware of any litigation claims or assessments pending or threatened against the District that will have a material effect on the financial statements, or the complaints have been referred to the insurance carrier.

10. SUBSEQUENT EVENTS

Management has evaluated subsequent events through February 19, 2020, the date on which the financial statements were available to be issued. No significant subsequent events were noted.

BERGEN COUNTY SOIL CONSERVATION DISTRICT SCHEDULE OF FINDINGS AND RESPONSES FOR THE YEAR ENDED JUNE 30, 2019

This section identifies the significant deficiencies, material weaknesses, fraud, noncompliance with provisions of laws, regulations, contracts and agreements, and abuse related to the financial statements for which Government auditing Standards requires reporting.

No matters were reported.

BERGEN COUNTY SOIL CONSERVATION DISTRICT RECOMMENDATIONS FOR THE YEAR ENDED JUNE 30, 2019

SEGREGATION OF DUTIES

The Financial Accounting Manual for New Jersey Soil Conservation Districts provides several internal control recommendations with an overall premise of segregation of duties. The principal concept is that no one employee should have access to both physical assets and the related accounting records or to all phases of a transaction. The District Secretary controls disbursements of funds, has control of checks and reconciles bank statements. This situation occurred because of the small size of the District's office staff and because of the limited number of employees qualified to perform these services. While steps have been taken to address the effect on internal controls due to lack of segregation of duties, we recommend that management continually monitor the situation. This recommendation is repeated from the prior year.
